Introduction

This report has been written to introduce you to the concepts of astrology and how to get started in relationship astrology. Astrology is a complex and meaningful science which takes years to study and apply successfully; however, we would like to whet your appetite with this report, and encourage you to deepen your understanding through other means.

Astrology is a study of the connection between planets and life on Earth. It is based on a concept that energy patterns form between other planets and Earth and that these energies affect our lives as individuals and communities.

An astrological chart, also known as a horoscope, natal chart, or birth chart, records the relationship between the planets and the signs of the Zodiac. Charts can be calculated for the birth of a person, a community, an event or anything that seems momentous. The horoscope is as individual and unique as a fingerprint.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection your chart, as it is likely that you do experience conflicting desires, events and circumstances in your life. Usually it is the responsibility of an astrologer to synthesise these apparent contradictions in order to present a cohesive and realistic interpretation of the dilemmas of the chart.

Please also be aware of the fact that each person has positive and negative influences in the chart, and therefore in their lives. The challenge is to accept and overcome the negative influences, so that we can successfully focus on the positive traits. This report outlines the influence of both people's charts on each other. This is called relationship synastry meaning the comparison of two horoscopes and the correlations discovered. It is likely that the report will show both the strengths and weaknesses of the relationship synastry. Any advice given is meant to be an aid to a person taking responsibility for their own lives and their own choices within a relationship. The ultimate decision rests with each individual. The author and publisher accept no liability for any adverse affects of this report.

Australian astrologer Stephanie Johnson has written the text in this report. Stephanie holds a Bachelor of Arts (Journalism) and was a journalist in Australia, England and the USA for 15 years before becoming a professional astrologer. She is currently a consulting astrologer, is Company Director of Esoteric Technologies Pty Ltd in Adelaide, Australia and Editor of the Australian Data Collection. Individual Relating Traits

This section looks at each person's individual relationship concerns in their own personal birth chart. Every individual brings certain needs and expectations into a union, which affect his or her ability to feel loved and supported. This in turn affects the nature and course of the relationship.

Traits of Meghan

Venus is in the 3rd House

When the planet Venus is placed in the third house of your birth chart communication is an important component of any relationship. You're bright and optimistic enjoying pleasant interchanges with other people in general, and with your siblings and relatives specifically. Your relationship with your siblings is likely to play a major role in your life. You like to fill your mind with pleasant thoughts rather than dwelling on negative and disturbing ones. Therefore you enjoy social outings in pleasant company, quiet moments with nature, attending the cinema or theatre, or reading an entertaining light novel. The arts such as theatre, opera, music, ballet, sculpture or art probably appeal to your refined mind. You also find joy through traveling, whether it is a short day trip or a longer tour or cruise. You're the type of person who enjoys sightseeing; chatting to fellow travelers and sending postcards home to loved ones. You're a good correspondent, taking great pleasure in writing and receiving love letters. When not traveling you also enjoy your own neighbourhood, and striking up convivial relationships with neighbours, and local shop owners. You'll value a relationship with someone who communicates clearly. You may meet your partner through a neighbourhood group or via your siblings.

Venus is in Virgo

With Venus in the sign of Virgo you'll seek meaningful relationships with a practical basis. You may appear to be timid and shy to others, but you're simply wary, weighing up the pros and cons before entering into intimate friendships or a meaningful relationship. You approach your primary relationship with caution, preferring to take things slowly so that you can build a lasting relationship based on real principles rather than romantic illusion. It's not that you don't enjoy a little romance. It's simply that you prefer to know that a relationship is going to last in the long term. For these reasons you may suffer some disappointments in love, as others are discouraged by your reticence, failing to recognise the depths of your affection. You admire neatness and punctuality, preferring someone who is hard working and healthy living like yourself. You enjoy someone who can converse on sensible subjects, perhaps even with an analytical mind. You need to be wary of being too judgmental, expecting perfection where it can't possibly exist.

Venus is Sextile Mars

The planets Venus and Mars are combining in your chart indicating that you seek a stimulating and romantic relationship. You're charming and assertive, passionate and alive, and admire these qualities in a potential intimate partner. You love to share your adventures with your partner, and it's likely that your relationship will inspire both you and your partner to explore new territory. You need only be wary of holding unrealistically high expectations of your partner, as this can lead to difficulties. This is more likely to be the case when you're young and idealistic. You're liable to disappointment, perhaps even angry feelings, when your partner fails to live up to your expectations. You could also feel angry if rejected in love. Fortunately

you've an irrepressible side to your nature, on which you can rely in times of relationship trouble. You're a loyal and fun-loving partner with an ability to balance intimacy with independence.

Traits of Prince

Venus is in the 8th House

When the planet Venus is placed in the eighth house of your birth chart you demand a high level of commitment from both your personal and business partners. Some people might groan at the thought of entering a business partnership, risking their hard-earned money and having to rely on other people. Not you. Joint projects, in particular business ones, are a source of fulfillment. You're able to stay focused on the task ahead enjoying the challenge and the thought of the possible rich rewards. Depending on other influences in your birth chart, you're likely to benefit financially through joint projects, particularly business partnerships with your spouse. Sexual intimacy in marriage is important to you. It is a major source of enjoyment and self-expression within your most intimate union. For this reason you need to also be wary of becoming too possessive or jealous. As long as you choose someone who also expresses themselves well in a sexual union then your intimate life is rewarding. You're also likely to receive monetary gifts through some form of inheritance.

Venus is in Libra

With Venus in the sign of Libra you enjoy the company of other people and tend to fill your life with people from all walks of life, although you do have a preference for people from the higher echelons of society. Your diary is filled with social occasions ranging from quiet chats with one or two friends, to larger gatherings of your loved ones. You've plenty of loved ones to choose from because human relationships are such a source of pleasure for you. You are kind and courteous and your enjoyment of people is contagious. As a result you're popular with your friends. Listening to other people's stories and offering soothing advice is almost second nature. You're particularly gifted at solving problems, because your first thought is to maintain harmony in relationships and you can always see both sides of a situation. Therefore you're able to bridge the gap between many a warring party. Your primary relationship is also important, and your first preference is for a long-lasting marriage based on fidelity and trust, rather than a series of shorter love affairs. It's important for you to keep the romance and enjoyment alive, otherwise you could feel trapped in an unrewarding relationship. You've a love of fine arts and enjoy sharing this with your friends and loved ones. You need only be wary of spending too much time and energy on your loved ones at the expense of yourself.

Venus is Sextile Mars

The planets Venus and Mars are combining in your chart indicating that you seek a stimulating and romantic relationship. You're charming and assertive, passionate and alive, and admire these qualities in a potential intimate partner. You love to share your adventures with your partner, and it's likely that your relationship will inspire both you and your partner to explore new territory. You need only be wary of holding unrealistically high expectations of your partner, as this can lead to difficulties. This is more likely to be the case when you're young and idealistic. You're liable to disappointment, perhaps even angry feelings, when your partner fails to live up to your expectations. You could also feel angry if rejected in love. Fortunately you've an irrepressible side to your nature, on which you can rely in times of relationship trouble. You're a loyal and fun-loving partner with an ability to balance intimacy with independence.

Synastry Between Meghan and Prince

Personal Issues

This section looks at the interaction between two people and their two birth charts. It notes the nature of the relationship, whether it is likely to be a successful personal relationship or whether the forces at work are suggesting a less intimate bond. In other words how do these two people come together on a intimate level?

Prince's Sun is Conjunct Meghan's Venus (Orb 9A48)

The combination of the Sun and the personal planet Venus is a positive one for personal relationships. It suggests that there is a sense of harmony and abundance in this union. It's likely that Prince and Meghan felt a strong attraction when they first met, possibly falling deeply in love. The durability of the attraction depends on other connections between the planets. However, Prince and Meghan are likely to remain friends even if they do not maintain an intimate partnership. Both Prince and Meghan feel at ease in each other's company, because they both feel that the other person is contributing positively to the union. As a result Prince and Meghan can relax and enjoy the benefits of their friendship. They seem to be able to settle arguments in a friendly and loving fashion, communicating with ease. Prince feels that Meghan enhances his sense of self. He feels valued by Meghan and this helps him to truly shine in the world. Meghan feels that her creativity is enhanced by her relationship with Prince. The warmth and generosity of Prince helps Meghan better express herself in relationships. Perhaps Meghan also benefits financially through her association with Prince.

Meghan's Sun is Trine Prince's Mars (Orb 4A57)

This combination of the Sun and the planet Mars is a positive one for a working partnership that calls for concentrated effort on a joint project. It also ignites a strong sexual spark for a personal relationship, one that continues to flare throughout the union. It is an exciting combination. There is never a dull moment when Meghan and Prince are together. They love and fight with energy. Meghan and Prince are hard working and energetic, achieving more together than they can on their own. Together Meghan and Prince are able to tackle most of life's challenges with confidence and a positive attitude, taking the initiative, rather than sitting back and waiting for things to happen. Together they also enjoy taking few risks in life, particularly ones that satisfy their sense of adventure. They need only be wary of becoming too impulsive, of taking unnecessary risks that lead to dangerous ground. Meghan feels that Prince provides the impetus and drive to help achieve her full potential. Meghan is aware that her personality also helps Prince achieve his goals. Prince is excited by Meghan's powerful personality and is inspired in his ambitions. This is certainly a progressive relationship that makes an impact on both Meghan and Prince and those around them.

Meghan's Venus is Square Prince's Mars (Orb 3A48)

This is a strong combination for a love union because it creates an intense sexual attraction. The durability and nature of the relationship depends on other connections between Meghan and Prince. Desire is strong, perhaps too strong at times in this relationship. Meghan and Prince are likely to fall in love at first sight enjoying a passionate union, the type of love affair featured in romance novels. At first both Meghan and Prince enjoy the intense physical nature of the union, but as time goes on the flames seem to burn too strongly. Prince begins to feel possessive and perhaps somewhat obsessive, eager to maintain the force of

passion. Meghan feels overwhelmed by the passion of the romance and the force of Prince's nature, and is in danger of becoming repulsed rather than attracted to Prince. As a result the relationship becomes a combat zone. Meghan and Prince start to compete rather than co-operate. The positive side of the relationship is the strong attraction felt by both Meghan and Prince. However, it is important for both Meghan and Prince to learn to temper their desires in this union. They need to remain focused on co-operation and communication in order to keep an appropriate balance in the partnership. While this combination is often found between marriage or sexual partners, it can also be encountered in friendships or work associations which involve working on an artistic project. However, it is important that both individuals remain focused on the creative project at hand because a sexual flirtation could easily get out of control.

Primary Forces

In addition to the intimate aspect of a relationship, there are usually a number of fundamental driving forces, which can be either major challenges or inspirations to the individuals involved. This section looks at how Meghan and Prince stimulate and provoke each other.

Meghan's Moon is Trine Prince's North Node (Orb 5S16)

Both the Moon and the Nodes individually are significant in relationship astrology. The combination of the Moon and the Nodes indicates that this is an important personal relationship, one that changes the course of Meghan's life and deeply affects Prince. Meghan and Prince feel strongly drawn to each other, perhaps experiencing a sense that their relationship was written in the stars. In other words they may feel as though they were destined to meet and form a union. Whether the path of this relationship is smooth or rough, Meghan and Prince's paths were meant to cross. The nature of this association depends largely on other aspects of Meghan and Prince's charts. Passion may ignite if the right ingredients are involved, or friendship may be most appropriate choice of relationship.

Meghan's Moon is Square Prince's Jupiter (Orb 1S20)

Although there can be some difficulties with this combination, on the whole this is a positive combination. Meghan and Prince enjoy each other's company and feel a certain zest for life when together. Meghan and Prince share a need for fun-filled adventures and the capability of achieving their goals. They both feel that the world is their oyster which is ready to explore together. This can include holidays in far-away places, adventure travel and also encompasses any activity which expands their minds and views of life. This is a meeting of higher-minds. Meghan feels that Prince expands her horizons. Meghan feels safe and appreciated in this relationship. Prince knows that Meghan is a comrade in arms when it comes to fun and adventure. Prince knows that he is truly appreciated for his generosity and optimism. Together Meghan and Prince can conquer the world. Nothing seems too far-fetched. And this is where problems can lie. It is possible that neither Meghan nor Prince know when enough is enough. There is a saying that 'you can have too much of a good thing'. This is one of the underlying problems of this association. Meghan and Prince need to make sure that they do not become too grandiose in their dreams. Overinflated ideas of their capabilities are not helpful and can lead both Meghan and Prince into troubled waters. Another complication can arise if Meghan and Prince do not share the same values, because morals and beliefs play an important role in this relationship. However, if Meghan and Prince share the same beliefs and can exercise some restraint this can be a positive combination for a long-term relationship.

Prince's Moon is Opposite Meghan's Uranus (Orb 4A42)

The saying 'expect the unexpected' could be applied to this combination of Prince's and Meghan's planets.

There is an element of excitement and adventure when Prince and Meghan get together, but there is also an element of insecurity. Both Prince and Meghan enjoy the thrill of being in each other's company exploring new territories together, but many relationships start with the thrill and ardour of romance only to have it fade later. This is the problem to be faced by Prince and Meghan. Unless they have other connections between more permanent or personal planets in their charts, Prince and Meghan are in danger of a growing discontent. There is a lack of stability that feeds both Prince's and Meghan's insecurities. Prince becomes needy and Meghan becomes distant and emotionally withdrawn. The problem is that Prince feels that he cannot rely on Meghan. What was once an adventure no longer seems so exciting. As a result Meghan's impulsive nature becomes a source of discomfort for Prince. On the other hand Meghan thinks that her creativity is being stifled by Prince's emotional needs. This belief may cause Meghan to rebel, finding it difficult to commit to Prince. This relationship, if a personal one, is likely to require a lot of freedom and an unorthodox approach in order for it to last. While this is a difficult combination for a personal union, it can be a positive one for less personal relationships such as friendships or a working project which requires creative and innovative ideas.

Meghan's Sun is Trine Prince's Uranus (Orb 2S07)

This is a relationship full of verve and romance. Meghan and Prince are attracted to each other from the moment that they first meet and continue to experience excitement and joy in each other's company. The relationship brings something new and original into Meghan's and Prince's lives and they both feel enlivened as a result. Life becomes more of an adventure when Meghan and Prince are together. Their relationship may run a somewhat erratic or unorthodox course, but Meghan and Prince are both happy in the knowledge that theirs is a unique union. Meghan is excited by Prince's creativity, which somehow enhances her personal goals. Prince helps Meghan to see life in a new and different manner, freeing Meghan from past inhibitions. Prince knows that he has encountered someone who truly appreciates him as an individual. Prince can better express his original thoughts and ideas as a result of his relationship with Meghan. Together Meghan and Prince may explore an unusual hobby or pastime such as new technology, metaphysics, science, electronics, humanitarian or environmental concerns.

Meghan's Sun is Square Prince's Saturn (Orb 0A50)

Many astrologers believe that a connection between the serious planet Saturn and a personal planet such as the Sun is important, providing the cement for a long-lasting relationship. In other words, a serious planet is needed for a serious, meaningful union such as marriage. It is certainly true that the combination of the Sun and Saturn is found in many meaningful relationships. However, the planet Saturn can also cause problems. Certainly this combination indicates that Meghan and Prince both view this as a serious association, whether it is a marriage, friendship or a working partnership. Both Meghan and Prince are committed to their association. It is likely that they experienced a strong attraction in the initial stages of their relationship. When Meghan and Prince first met they each knew they had discovered a potential serious relationship, one to which they could commit and build on over a lifetime. If they believe in reincarnation, then it is likely that they felt a karmic attraction when they first met. Perhaps this was a moment of recognition when they first looked into the other person's eyes. However, the very qualities, which they seriously considered as attractive in the initial stages of the relationship, can become the source of friction if they are not careful. In particular, Prince needs to be wary of becoming too critical and judgmental. Initially Prince found Meghan's personality traits to be worthy of a committed union. He admired Meghan's qualities as complementing his own. However, it is easy for Prince to forget this attraction. As the relationship develops he feels threatened by the force of Meghan's personality and takes a superior attitude in defence. As a result Meghan feels threatened, disliking the authoritarian side of Prince. If Meghan is not careful her self-confidence is whittled away and the relationship becomes onerous. It is vital that both Meghan and Prince work at developing a stable basis for communication and understanding in this relationship. If both Meghan and Prince work at maintaining their own self-confidence as well as mutual respect then they have the makings for a very successful marriage or working relationship. Much of their success may depend on other supportive, positive connections between them.

Prince's Sun is Square Meghan's Neptune (Orb 0S37)

Romance and love are central themes of this relationship between the Sun and the planet Neptune. This can suggest a romantic liaison in which both people are blessed with a sense of being with the right person at the right time, or it can mean a friendship that is based on a joint artistic project or spiritual interest. Perhaps they enjoy spending time in the natural surroundings of the beach or countryside. Either way Prince and Meghan are likely to enjoy escaping from the harsher realities of life into a world of their own creation. However, problems can arise when Prince and Meghan start to sacrifice their own personal needs for a misguided

perception about what is good for the relationship. This behaviour can erode the creative component of the union and both Prince and Meghan may lose their self-confidence and direction in life. It is possible that, together, they may turn to drugs, alcohol or even crime in their attempts to maintain the loosening threads of their union. In particular, Prince needs to be wary of losing his sense of self. It would be easy for Prince to be deceived by Meghan either through his own need to believe in a dream or through Meghan's behaviour. Meghan needs to be wary of becoming secretive and dishonest within this association. As the relationship develops Meghan may become confused about the true meaning of her bond with Prince leading to a need to hide her true feelings. On a more positive note, Prince and Meghan may have other more positive connections in their relationship astrology that enables them to work through their problems in a loving and compassionate manner.

Meghan's Mercury is Trine Prince's Uranus (Orb 4A16)

This is an exciting and unpredictable relationship. Meghan and Prince enjoy a lively union, whether it be a romance, friendship or work association. They take pleasure in topical conversations, sparking new ideas and ways of thinking. They may also enjoy taking part in an unusual activity or pursuing an environmental, humanitarian or political cause. This combination of planets indicates intellectual, rather than emotional, stimulation. Consequently this combination may indicate a friendship or work association, rather than a more personal union. However, an intimate relationship with other aspects is enhanced by this combination if both partners enjoy freedom. Meghan and Prince are excited by each other's minds. In particular Meghan realises that Prince sparks her creativity. Both Meghan and Prince enjoy a new-found sense of freedom in each other's company.

Meghan's Venus is Sextile Prince's Saturn (Orb 0S17)

The planet Saturn is an important ingredient in any committed relationship. This sombre planet can take away some of the short-term excitement of any union, but on a positive note it adds commitment and security needed for a long-term association. In other words Meghan and Prince take this relationship seriously. They are devoted to each other and joyful in making promises that they are both able to keep. From the start of their association they enjoy taking their time getting to know each other, experiencing stability and understanding that grows slowly over time. They genuinely love each other and want to work towards a strong partnership. At times Meghan would like more fun and spontaneity, but she appreciates Prince's wisdom in slowing things down in order to build a lasting union. Mutual respect is a central theme to this union. There is also a strong feeling of fate in this relationship. Meghan and Prince may tell a story of how destiny meant for them to be together. While this combination of planets indicates a serious personal relationship, it can also be a positive influence on a partnership formed for the purpose of an artistic or creative project requiring both inspiration and hard work.

Prince's Venus is Conjunct Meghan's Pluto (Orb 4A08)

Intense emotions are central to this relationship. Prince and Meghan feel a passionate attraction to each other, a compelling need to be together. Sexual magnetism plays an important role in the initial stages of the union and continues, even through times of emotional difficulties. It is also possible that Prince and Meghan share an artistic or creative pursuit about which they are both ardent. Whatever the outlet for the emotions, the key is intensity. On the whole this combination of the planets Venus and Pluto has a positive influence on any association, but it can be overpowering in some instances. If both Prince and Meghan enjoy intensity then this relationship positively transforms both their lives. Together they embrace the changes that challenge any relationship. If one of them dislikes emotional upheaval, then there are likely to be problems. In particular Prince may feel overwhelmed at times by the force of his own emotions or the power of Meghan's personality. At other times Prince enjoys learning about how to be more influential in his life. Meghan feels more powerful as a result of this union with Prince, more able to achieve her ambitions.

Meghan's Venus is Square Prince's Uranus (Orb 3S15)

This combination of planets indicates an instant and vital magnetism. It is the type of attraction in which Meghan and Prince take one look at each other across a crowded room and feel the sparks. Romance is alight and the relationship develops at a rapid rate. Friends are amazed as the couple's union becomes more and more intense. However, it is likely that Meghan and Prince have trouble maintaining the excitement in the long term unless they both allow each other a lot of freedom. As the relationship develops the attraction is in danger of turning to irritation as the passion wears off unless there is a lack of restrictions. This combination is ideal for an unusual relationship, or one where both people value their autonomy, although it may take a while to establish the appropriate mix of freedom and intimacy. At times Meghan may feel that her love is being rejected as other interests and pursuits distract Prince. Perhaps it is difficult for Prince to maintain his

involvement in this relationship without becoming distracted by other creative interests. These may be scientific, astrological, environmental, technological or political. If other aspects of this relationship do indicate a strong bond, it is likely that Meghan and Prince experience friction in areas such as finances, personal hobbies, home comforts and friendships. The challenge for both Meghan and Prince is to find a balance between freedom and intimacy that suits both of them. If this can be achieved then the union becomes a highly stimulating one, which helps both Meghan and Prince actively pursue their own interests and aspirations.

Meghan's Mars is Trine Prince's Saturn (Orb 1A23)

Commitment is a central theme to this relationship. Meghan and Prince are striving to build something concrete whether it be a future together or work project. Together they have the strength and wisdom to achieve a shared ambition. This is not a flighty association. Both Meghan and Prince are aiming for a long-term and stable partnership. For this reason the union is likely to involve a contract, perhaps a business or marriage contract. There may also be a strong sense of destiny linked with this union. Meghan contributes the drive and initiative and Prince possesses the stability and practical aptitude. Meghan wants to move forward, inspiring Prince to overcome obstacles that stand in their path. Meghan is full of enthusiasm, whereas Prince is more cautious. At times Meghan pushes Prince forward. At others Prince restrains Meghan, proving that there is wisdom in a slow but sure path. Together they achieve success in their joint enterprises in the long term.

Prince's Mars is Conjunct Meghan's Neptune (Orb 5A22)

The glue that holds Prince and Meghan together is a focus on a joint artistic, spiritual or philanthropic cause, a shared idyll of how to make the world a better place. Together they share many dreams of how to improve their lives, their environment and the world at large. They are a creative duo, never short of ideas and with the ability to inspire. Depending on other aspects of their personalities they may or may not have the stability and endurance to create something concrete. Prince is likely to be the leader, the person with the drive which enables them to achieve these dreams. Meghan is the creative ideas person who inspires Prince. If Prince and Meghan fail to share a common dream, then this relationship is likely to lack direction and Prince and Meghan slowly drift apart. They have difficulty maintaining a momentum necessary for a long-term bond. For this reason this combination of planets may indicate a relationship based on a shared project or past-time rather than an intimate lovers' bond. For instance Prince and Meghan may share a friendship, enjoying martial arts as a shared activity.

Meghan's Jupiter is Sextile Prince's Uranus (Orb 3A12)

Spiritual and philosophical interests could be at the centre of this relationship. Meghan and Prince enjoy a meeting the meeting of two minds. They are excited by each other's innovative ideas, perhaps sharing a common creative project. Their relationship follows an erratic course, but they are both happy with the stimulation and excitement. They enjoy a non-orthodox association, spurning a more traditional one. A wide range of subjects crop up in conversations including philosophy, science, religion, metaphysics, technology, world cultures, environmental science and world politics, to name a few. Meghan and Prince spend much of their time together pursuing their common interests and learning from each other. Meghan experiences a broadening of her intellectual concepts through her association with Prince. She delights in the challenges that this ever-changing relationship provides. Prince is excited by Meghan's keen interest in his ideas. He appreciates the freedom of expression and exchange of ideas. This is an intellectual connection and therefore is more likely to benefit a friendship rather than a lover's union.

Meghan's Jupiter is Square Prince's Jupiter (Orb 3S06)

This association can bring joy to both Meghan and Prince, depending on the nature of other aspects of their relationship. If other aspects are positive then Meghan and Prince are likely to enjoy each other's company, giving and taking. Although they may hold opposite beliefs or find pleasure in different ways, they are tolerant of each other's differences. In fact they enjoy the stimulation of each other's differences. Ancient astrologers consider the planet Jupiter to be of beneficial affect in each person's life. Hence the mostly positive influence of this combination on Meghan and Prince's relationship. There is a chance that other tensions in their union adversely affect this beneficial influence. If this is the case then Meghan and Prince are more likely to have differences of opinion over values, beliefs and pastimes. These differences can be a source of tension rather than a source of joy.

Prince's Jupiter is Square Meghan's Saturn (Orb 2S17)

A strong bond is formed as a result of this combination of the planets Jupiter and Saturn, but not necessarily an easy one. Prince and Meghan have difficulty find the right balance between boldness and caution. On the

one hand Prince is the risk-taker in this relationship, the person wanting to explore new territories and activities. He is excited by the many possibilities available as a result of this partnership's resources and feels constrained by Meghan. This is because Meghan errs on the side of discretion. She believes that a slow but sure approach is a sure sign of success. Meghan believes in the edict "moderation in all things", whereas Prince espouses the adage "nothing ventured, nothing gained". Neither Prince nor Meghan listen to each other. Both have trouble seeing things from the other person's point of view. This is true of friendships, marriage and work associations. It is possible that Prince and Meghan have met in order to learn something from each other in order to become stronger and wiser for future relationships.

Generational Values

Underpinning the success of many relationships is a sense of shared values. Often this comes from simply being born into the same generation. However, sometimes it is more complex. In this section we explore whether or not Meghan and Prince share the same societal values.

Meghan's Neptune is Conjunct Prince's Neptune (Orb 6S20)

This planetary combination of Neptune indicates common ideals, which can help form a basis for a relationship. However, many other combinations of planets will make a more significant contribution to this union between Meghan and Prince. In some cases this combination may simply indicate that Meghan and Prince are a similar age. Nevertheless the effect is still one that enhances their relationship because all liaisons benefit from a sharing of values and ideals.

Every now and then a couple has no astrological connections in this section. This is not a common occurrence. When it does occur it shows that you are unlikely to share generational value systems. This could mean a lack of shared values which needs to be discussed and worked on. On the other hand it could mean that you have each formed your own strong value systems and that some of these do indeed match. Nevertheless this is an area of your relationship that you need to be aware of, and investigate. What are your values? What morals and values do you share? Does it matter to either of you whether or not you share moral, religious or ethical views?
